

To Whom It May Concern,

My name is Graciela Barcelo and I am 18 years old, currently attending the University of Arizona. I am interested in studying public health and finding a career that gives back to my community. I attended the Girls Confidence Camp in 2023 and greatly enjoyed my time. I had never been to a camp similar to this one, and learned a lot about growth and leadership. I had a lot of good experiences, and loved learning new things in the many activities. I was also able to meet a lot of people, and find a lot of support in this community. I was welcomed by everyone I met, and very comfortable in the group I was surrounded by, even while being on the quiet side. I would love to help give the same experience to other girls, and help in teaching them some of the important lessons I learned. I would also like to strengthen my personal skills through this internship. I think this camp would be a good opportunity to grow my experiences working and leading. I want to serve my community in as many ways as possible, and especially in an opportunity involving future leaders. Helping younger girls find their voices has always been important to me, and something I believe needs more focus. In having the opportunity to intern at the Girls Confidence Camp, I am sure I would be able to inspire more girls, and show them how to leave their impressions on the world.
