EXPERIENCE

Hattie B. Black Women In Progress, Prescott, AZ — Intern

July 2024 - July 2024

During this summer internship, I was taught basic first aid and how to deal with young individuals – specifically young women – while helping to foster their confidence. Interns were tasked with keeping watch over our groups for a four-day overnight camp. In this internship, I improved my problem-solving skills, I dealt with semi-emergency situations, I helped to nurture trusting relationships between my group and I, and I held myself responsible for maintaining their schedules and helping them remain organized throughout the duration of the trip. I also collaborated with other interns and volunteers to help the trip go as smoothly as possible.
